Dear Bob,

I just wanted to write this letter of praise concerning the completion of our new website. Our work force is very unique and the way you took on this difficult project with such enthusiasm and professionalism was appreciated.

I don't know where to begin to express what I like most about the site. Starting with the flash movie, to the pictures, to the write ups, your inventive techniques were displayed from beginning till end. Your years of experience in the Internet Market are obvious from the masterpiece you created for us. I am certain this "awesome" website will become our best advertising tool.

Our clients are very impressed with the design and creativeness featured throughout each section. They have realized from viewing our site that their webpage needs updated to be competitive in today's market.

You can be certain that we will recommend your services to all our contacts. Hopefully we can work together again in the future. **Well Done!**

Sincerely,

Dale K. Campbell
President
